

TEACHER PERFORMANCE

Teacher Professional Growth and Performance Assessment have been designed to ensure that the students of the River East Transcona School Division maximize their learning opportunities through a standard of education that is consistent with the division's mission, goals and priorities.

- (1) Teacher Professional Growth is a process that encourages and promotes personal professional development. The division is committed to assisting teachers in the acquisition of best validated teaching practices through learning opportunities to improve the quality of teaching and thereby enhance student learning.
- (2) Teacher Performance Assessment is a process that results in a summative report based upon specific criteria that is designed to ensure that teachers maintain a satisfactory level in the performance of their professional duties.
