

GRADUATION: NON-SCHOOL-SPONSORED ACTIVITIES

A non-school-sponsored activity is any activity for the graduating students that is sponsored and organized by the parents/community to provide a safe activity outside of school-sponsored activities. If a non-school-sponsored activity is organized by the parents/community, it is recommended that the parent committee follow the Manitoba School Boards Association (MSBA) “safe grad” protocols.

Participation by the division is limited to the principal or designate providing meeting space at the school for the organizers to meet, agreeing to distribute notices to the graduating students, and permitting reasonable communication with the graduating students by the organizing committee (not interfering with instructional time).

Divisional personnel will not be involved in the planning, organization, or supervision of any after-hours activities (except as outlined above for the principal) nor will the division’s property, facilities, or resources such as school buses be provided for the event.
