

The River East Transcona School Division recognizes that some students attending schools may require the administration of medication in response to an acute allergic reaction.

For the safety of students, staff and parents/guardians, the procedures as identified in JLCG-R1 – Anaphylaxis Procedures and JLCG-R2 – Anaphylaxis Avoidance Strategies must be followed within the division. This policy was developed to reflect the guidelines and procedures outlined in the provincial *Unified Referral and Intake System (URIS) Manual (1999)*.
