

November 28, 2022

Dear Parents of Radisson School,

We trust that this letter finds both you and your family healthy and well.

Yesterday, you may have noticed that one portable was delivered to the grounds of Radisson School. We have been told that the second portable will arrive Sunday, December 4, 2022.

River East Transcona School Division has been informed by Winnipeg Building and Decorating Ltd. that it will now take up to six weeks for these portables to be installed and prepared for student and staff use. Once a “move in date” has been firmly established, Scott Harmacy, principal of Radisson School, will communicate that to you. School staff are eager to create an inviting learning environment in those new spaces once they are ready for use.

This process has taken a long time. We would like to assure you that River East Transcona School Division has diligently and relentlessly been working with both the provincial government, the City of Winnipeg, and Winnipeg Building and Decorating Ltd. over the past several months advocating on behalf of our students, staff, parents and community. In these times, it seems that delays and supply-chain issues have become the norm.

These delays—while out of the division’s control—affect our students the most and we acknowledge and appreciate their continued perseverance and grit, along with that of their families and school staff.

Sincerely,

Colleen Carswell  
Chair, Board of Trustees

Sandra Herbst  
Superintendent/CEO
